KEVIN BAKER, P.E. JOINS KELLER ELECTRICAL INDUSTRIES, INC.

PHOENIX, ARIZONA, September 26, 2011 – Keller Electrical Industries, Inc., the southwest’s leading service provider of industrial electrical motor repair services and a manufacturer, integrator and installer of custom industrial motor controls, announced on September 26, 2011, that Kevin Baker joined the Company as a Senior Electrical Engineer.

Kevin has more than 25 years of experience in the manufacturing, repair and distribution environment. He has an extensive background in the electrical industry with hands-on application knowledge of switchgear, motor control center design and manufacturing, automation, programmable logic controls and variable speed drive applications. His professional experience also includes significant experience in the mining sector.

Kevin is a B.A. graduate from the University of Arizona with emphasis in Mathematics, Physics and Engineering. He is registered as a Professional Electrical Engineer in Arizona and Nevada. Kevin spent over twenty-one years at Industrial Motor & Control Inc. last serving as Sr. Application Engineer and most recently he was an Electrical and I&C Engineer for M3 Engineering & Technology Corporation.

“We are very pleased to attract someone with Kevin’s experience and knowledge of electrical systems and product applications to our organization,” said Don Anderson, President and CEO of Keller Electrical Industries. “Kevin is very well known and a respected professional in our industry and will be a tremendous asset for our growing electrical industrial controls and switchgear manufacturing operation and engineering design services division. Kevin will be located in the Company’s Tucson, Arizona office.

Founded in 1982, Keller Electrical Industries, Inc. is a leading provider of industrial electrical motor repairs and service, custom motor control manufacturing and distributor of heavy duty motors and equipment. The Company is headquartered in Phoenix, Arizona and provides services throughout the state and southwest including California, Nevada, Utah and New Mexico. More information about the company is available at www.kellerelectrical.com.
